9. Adjournment

**About our speaker:** Dr. Timothy Brown has been working in the driving research field since 1994 and has extensive experience in the design, development, conduct, and analysis of driving research studies. His academic and research career has focused on in-vehicle systems, warning systems, medical considerations in driving, and modeling driver performance. Recent work has focused on evaluating vehicle systems to better understand potential safety benefits. Dr. Brown is a member of the National Academies Transportation Research Board and the Association for the Advancement of Automotive Medicine. Dr. Brown is also a member of the University of Iowa's Behavioral/Social Sciences Institutional Review Board.
