

**Minutes of the**  
**QUAD CITIES, IOWA-ILLINOIS**  
**URBANIZED AREA**  
**TRANSPORTATION TECHNICAL COMMITTEE**

Tuesday, August 9, 2022, 10:00 a.m.  
Bi-State Regional Commission  
Third Floor Conference Room 320  
1504 Third Avenue  
Rock Island, Illinois

*With COVID-19 guidelines for state and federal officials for gatherings, this Technical Committee was held in person, requiring voting members to be present.*

**MEMBERS PRESENT**

Rob Bates	Illinois Department of Transportation-District 2
Dennis Bockenstedt	City of LeClaire
Tim Kammler	City of East Moline
Mike Kane	City of Rock Island
Angie Kersten	Scott County
Laura Klauer	City of Moline
Brian Schadt	City of Davenport
Gary Statz	City of Davenport

**OTHERS PRESENT**

Jennifer Bizarri	Bi-State Regional Commission
Doug DeLille	Illinois Department of Transportation-Springfield
David Dryer	City of Moline
Gena McCullough	Bi-State Regional Commission
Bryan Schmid	Bi-State Regional Commission
Brian Stineman	City of Muscatine
ChongQing Wu	Bi-State Regional Commission

1. Approval of Minutes of the June 14, 2022 Transportation Technical Committee (TTC) Meeting. Mr. Kammler requested a motion for approval of the June 14, 2022 minutes of the Transportation Technical Committee. Mr. Schadt motioned to approve the minutes as written. Mr. Bates seconded, and the motion carried.
2. Status of Project Progress Report. Ms. McCullough thanked committee members for sending updates and edits in the past month. She asked committee members to keep sending in updates as project status changes. Updated progress reports are posted to the Bi-State website.
3. Consideration of Revision to FFY2022-2025 and FFY2023-2026 Transportation Improvement Programs. Ms. McCullough presented this month's TIP revisions. Included were five amendments concerning bridge cleaning in Illinois on various routes added as new projects. The amended project numbers were IL-23-12, IL-23-13, IL-23-14, IL-23-15, and IL-23-16. Ms. Kersten motioned to recommend the five amendments for approval by the Transportation Policy Committee. Mr. Kane seconded the motion, which carried. In addition, Ms. McCullough noted 28 administrative modifications largely moving Illinois projects to Current Status.
4. Consideration of Bi-State Regional Intelligent Transportation System (ITS) Architecture. Mr. Wu presented the updated ITS Architecture report, which was last updated in 2013. Changes in this update include new software, which converted data from an older database; local updates solicited from Transportation Technical Committee members; and updated definitions and structure. Mr. Wu recommended that the report be updated on an annual basis, which would prepare the region for funding opportunities. The local stakeholders component of the data collection process can be found in the report's appendix. One example of a technology update in this report is Bettendorf Transit's use of TransLoc software, which allows riders to see real-time location information of the

system's buses. Mr. Schadt motioned to recommend approval of the ITS Architecture to the Transportation Policy Committee. Ms. Kersten seconded the motion, which carried.

5. Discussion on Safe Streets for All (SS4A) Planning Grant Scope of Work. Ms. McCullough described the SS4A grant program, as a new program under the Infrastructure Investment and Jobs Act (IIJA). The FHWA is accepting applications through September 15, 2022 for planning or implementation projects. Ms. McCullough detailed that Bi-State is completing a planning grant application to fund a consultant study of a FHWA-approved traffic safety plan to allow communities the Bi-State Region to apply for SS4A implementation grants in the future. The grant application seeks \$160,000 in federal funds to be matched with \$40,00 from state and local sources. If awarded, Ms. McCullough anticipates the planning process to last approximately 18 months. The goal would be to implement a Safe Systems Approach, which anticipates people making mistakes and attempts to design around it or manage risk to decrease fatal and severe injury crashes.

Portions of the Quad Cities Traffic Safety Plan will be utilized in the planning process. A special representative from the Technical Committee will serve on the regional steering committee for safety with an eye toward a multidisciplinary approach to traffic safety. Following completion, broad adoption of Vision Zero targets are expected, highlighting the goal of zero roadway fatalities. "Equity Areas" are to be highlighted in programs, as well as network resilience to make the system more adaptable to extreme weather. It is likely that a chosen consultant would make recommendations along specific corridors and provide systemic safety strategies and offer a project prioritization workshop.

6. Public Comments. There were no public comments.
7. Other Business: Ms. McCullough shared presentation slides regarding Illinois Bridge Bundling. Bridge bundling allows for the repair, replacement, or rehabilitation of multiple bridges under a single contract, resulting in lower costs overall. Mr. DeLille noted the Illinois DOT Fall Planning Conference would take place September 21-23 in Rockford.
8. Adjournment. Mr. Kane motioned to adjourn, seconded by Mr. Schadt. The meeting adjourned at 11:05 a.m.
