

Andalusia Road/Indian Bluff Road Corridor Study Transportation Needs Survey

Andalusia Road/
Indian Bluff Road
CORRIDOR STUDY

Bi-State Regional Commission along with Rock Island, Milan, Moline and Rock Island County are conducting a study of Andalusia Road/Indian Bluff Road from Turkey Hollow Road to US 150 and are seeking input from the public and stakeholders. The purpose of this survey is to identify needs and opportunities along the corridor. We ask that you please complete the following survey regarding transportation on Andalusia Road/Indian Bluff Road.

1. If you had a wish list of transportation improvements for this corridor, what would they be?

2. Please rank the following items for this corridor based on priority from 1-9
(1=highest priority; 9=lowest priority):

- | | |
|---|---|
| <input type="checkbox"/> Travel Time/Traffic Movement | <input type="checkbox"/> Pedestrian facilities
(sidewalks, crosswalks, etc.) |
| <input type="checkbox"/> Bike Facilities and Trails | <input type="checkbox"/> Access to homes |
| <input type="checkbox"/> Access to Businesses | <input type="checkbox"/> Signage |
| <input type="checkbox"/> Lighting | <input type="checkbox"/> Other |
| <input type="checkbox"/> Protect Environment (Sustainability) | |

3. If you chose "Other" in the question above, please explain

4. Are you a...

- Resident/Individual Business Owner/Manager/Worker/Employee Both

5. If you are answering for a business, what is the approximate split between cars/light trucks and semis/commercial vehicles entering/exiting your business on an average day? (Example: 60% cars/light trucks and 40% semis/commercial vehicles). You may skip this question if you are not a business.

Cars/Light Trucks: _____

Semis/Commercial Vehicles: _____
