Part Byron is located on the banks of the mighty Mississippi River on the fringe of the Quad Cities, a thriving metropolitan area with a population of nearly 380,000. The community is host to the Great River Tug Fest, an inter-state tug-of-war contest across the Mississippi River from Port Byron, Illinois to LeClaire, Iowa, which culminates with a magnificent fireworks display.

Besides the memorable Tug Fest, Port Byron offers many other recreational opportunities including a charming riverside park; Devonair Park Forest Preserve; and extensive bike paths, which are part of regional and national trail systems and parallel the Great River Road, a nationally-designated scenic byway along the banks of the Mississippi.

The city is anxious to welcome additional development, thanks to a new, state-of-the-art wastewater treatment facility, the first of its kind in Illinois. As part of this improvement, the City is planning extended sewer and water lines in the northern portion of the community. The utility improvements will open up a large area of undeveloped land, ripe for development.
